UC Pro 2

Business communication is undergoing rapid change today.
This application allows easy, intuitive use of various forms of communication -- like high-speed, precise information transmission and seamless, multidevice connection.
However, business communication needs to do more than just increase work efficiency, it must be easily integrated into existing systems and help to lower costs across the table.
Because of UC Pro 2's excellent compatibility with Panasonic PBXs, it offers strong support for virtually various kinds of business.

Providing Solutions with UC Pro 2

PC

Fast, Efficient Work Tool

Panasonic UC Pro 2 is designed to use Windows clients as the main interface, to provide a host of collaborative functions, including large-capacity call functions, unified messaging, presence, and shared directories.

UC Pro 2 provides a wide range of solutions to users and businesses, for small, medium and large-scale enterprises. It is a highly efficient tool for multi-tenant companies.
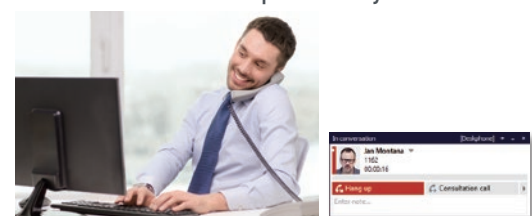

You can also check the presence of UC Pro 2 users on Windows PCs even if they haven't installed UC Pro 2, and chat with them as well. This supports closer in-company communication for your business.
